Work Experience

Full Stack Web Developer – SheerBulls India Pvt. Ltd　　　　　　　　　　　**May 2023 – Oct 2024**
Gurugram, India

- Worked as a Full Stack Web Developer in the IT Department, contributing to the design, development, and maintenance of web applications.
- Developed scalable frontend applications using **React.js** and **JavaScript**, focusing on performance and user experience.
- Built and maintained backend services using **Node.js** and **Express.js**, enabling seamless integration with frontend systems.
- Designed and integrated **RESTful APIs** to support business workflows and third-party integrations.
- Worked with databases such as **MongoDB** and **MySQL** to manage and optimize application data.
- Collaborated closely with cross-functional teams to gather requirements, debug issues, and deliver features on time.
- Followed best practices in version control using **Git** and **GitHub**, ensuring clean and maintainable codebases.

Full Stack Developer – Prism Infoways Pvt. Ltd　　　　　　　　　　　　　**Nov 2024 – Dec 2025**
Gurugram, India

- Led the end-to-end development of scalable web applications using the **MERN stack** (MongoDB, Express.js, React, Node.js).
- Optimized frontend performance by implementing techniques like lazy loading, code splitting, and memoization, achieving a 35% faster render time.
- Implemented state management with **Redux**, improving data flow and state synchronization across components, making the application more maintainable.
- Developed and integrated backend services using **Express** and **Mongoose**, enabling efficient communication with MongoDB and improving the scalability of web applications.
- Applied best practices for backend development, including **RESTful API** design, ensuring secure, scalable, and maintainable code.
- Used **Docker** for containerization, simplifying deployment and ensuring consistent development environments across different stages of the project.
- Contributed to multiple projects including **Labour Law** and **Autobitnex** and **Infant Formula** and **Prism**, developing features, optimizing performance, and enhancing user experience.
- Familiar with **AWS services** including **EC2**, **S3**, **Lambda**, and **IAM**, with hands-on exposure to basic cloud deployment, access control, file storage, and simple serverless workflows.
- Contributed to the development of the **AssureLoad Logistics App** using React Native, implementing features like real-time load tracking, order management, and seamless REST API integration to improve operational efficiency.

Projects

Praans Consultech – Labour Law Website　　　　　　　　　　　　　　　**Sep 2024 – Nov 2024**

- Developed **praansconsultech.com**, a Labour Law consultancy website using **Next.js**, **TypeScript**, and **ShadCN**.
- Implemented a clean and professional UI to present Labour Law services, compliance details, and legal information in a structured manner.
- Integrated **RESTful APIs** for handling contact forms, inquiries, and dynamic content updates.
- Applied performance optimization techniques such as server-side rendering (SSR), code splitting, and lazy loading for faster page loads.
- Ensured responsive design and cross-browser compatibility for seamless access across desktop and mobile devices.

Shopify – E-commerce Platform　　　　　　　　　　　　　　　　　　　**Mar 2025 – Apr 2025**

- Worked on Shopify-based e-commerce applications, including custom theme development and UI enhancements.
- Implemented advanced **Shopify theme customization** for **braymil.com**, aligning the storefront with brand requirements.
- Enhanced user experience by optimizing product pages, checkout flow, and mobile responsiveness.
- Integrated third-party apps and custom scripts to extend Shopify functionality and improve store performance.

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, Python
Technologies: ReactJS, Next JS Full Stack, React Native, Redux, Node.js, Tailwind CSS, Express.js, DJango, ShadCN,
Databases: MySQL, MongoDB
Tools: VSCode, PyCharm, Postman, Git, GitHub, Docker, AWS, CI/CD
Concepts: RESTful API Design, Version Control
AI: GenAI, LangChain, Agentic AI

Education

University of Lucknow, Lucknow　　　　　　　　　　　　　　　　　　　**Aug 2018 – Jul 2021**
Bachelor of Computer Application　　　　　　　　　　　　　　　　　　　　　　*Uttar Pradesh, India*
